Unity Developer | Gameplay Programmer

About me

Lorem ipsum dolor

Unity Developer focused on C#, with experience in teaching game development and building cross-platform applications for Erasmus+ projects. Passionate about creating engaging gameplay systems and interactive experiences.

Experience

Unity / C# Instructor — ETIC_Algarve

2025 – Present

- Teach Unity and C# through project-based learning
- Support students in scripting, debugging, and gameplay development
- Develop applications for Erasmus+ international projects
- Contributed to **GreenSesame** and **GameCRIT**, including porting to Android and iOS

Game Development Intern — Nerd Monkeys

2024

- Contributed to unannounced Unity prototypes and vertical slices
- Implemented and tested gameplay systems and core functionality
- Collaborated in a small remote team on systems-driven prototype development

Projects

GameCRIT — Erasmus+ Project (ETIC_Algarve)

2025 – 2026

- Developed dynamic UI and content systems for creating, answering, and translating gamified quizzes
- Built data-driven workflows using Firebase (REST/JSON), including cloud-saved layouts, progression, and reward systems

Education

2022 - 2024 — **Videogames 22_24**
Escola de Tecnologias, Inovação e Criação do Algarve (ETIC) Course

2024 - 2025 — **BSc (Hons) in Games Development**
Teesside University
First Class Honours, Top-up year
